DTIC Offers Easy Registration for Non-DoD Federal Employees

[DTIC Communications Team](#)

4 June 2013

Fort Belvoir, VA – DTIC now provides an easy registration process for non-DoD federal government employees. DTIC, partnering with the Office of Personnel Management (OPM), enables these federal employees to access Department of Defense (DoD) unclassified, limited information faster.

How has the registration process changed?

- Federal employees can now enter their personal information online, which will be securely verified against the OPM employment database
- An SF-50 (Notification of Personnel Action) will no longer be required for verification of federal government employment

Non-DoD federal government employees without a DoD Common Access Card (CAC) can go to the box labeled, “Do not have DoD CAC” and hit “Register.” Follow directions on the next screens and welcome to DTIC!

If you have a CAC, you can register with DTIC by clicking on the Login/Register box, located below the User Agreement.

Please share this news with non-DoD federal employees, so they can learn about the value of DoD’s research & engineering tools.

Need registration information? Go to: <http://www.dtic.mil/dtic/registration/>.
